BAZAAR - CHE

Architect:Navid Nazemi

Area: 4176 m^2

Location:Taabodi Street, Mashhad

The design of the Bazaar-Ch project began to respond to the question of how this large-scale uninvited guest could be placed among the fine-grained texture of the businesses around it, while at the same time articulates the coordination, readability, and definition of its work
This commercial project is located in the old and traditional part of the holy city of Mashhad. Which sells two major products of original Iranian fabrics and carpets based on client's request to contain a set of rooms that considers dual uses such as public spaces and pantries. Traditional cafeterias create a more perfect urban context between the old bazaar owners and buyers, like the old Timchehs of Iranian architecture
