

LET THERE BE WIND

FIRST FLOOR PLAN

- 01 LIVING ROOM
- 02 DISABLED BED ROOM
- 03 BED ROOM
- 04 BALCONY
- 05 VOID
- 06 BRIDGE
- 07 MASTER BED ROOM
- 08 LIFT

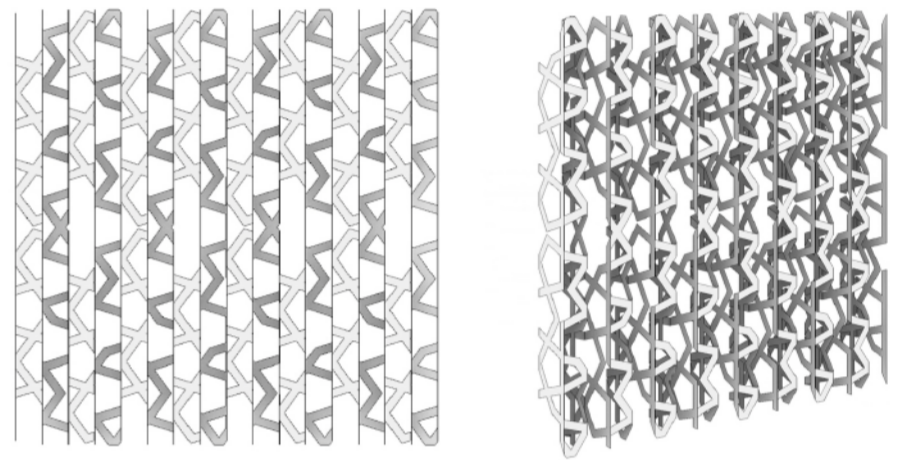

Inspired by the geometrical form of Sormeh-daan knot we have designed a pattern which prevents direct sunlight but allows the beautiful play of light and shadow both in outer and inner spaces in different hours of the day. This pattern, born from folding and deconstructing Sormeh-daan knot, has created an original texture which is both functional and adds to the visual beauty of the design.

SECTION B.B

For people in handicapped situations, not only have we provided access to their private spaces and room but also to all other spaces so that architecture adapts itself to their needs and they enjoy their time with others.

A. Geometric Pattern B. Mesh From Pattern C. Split the Pattern

D. Fold the Mesh
