

BEIJING TAIHU BOUTIQUE HOTEL

Feel the ups and downs
of the people in the play

DESIGN CONCEPT

Stage performances of different forms whether opera, operetta, concert cross talk or talk show, all carry our innermost shadows. We can appreciate the joys and sorrows of the world and taste the lives of various families.

Therefore, the concept theme of Taihu Boutique Hotel project is: "Drama is like life - interpreting all kinds of life".

We extract the elements of drama, stage and curtain in the art performance and take sound, shadow dance and light as spatial elements. Aiming to build a featured, delicate and flexible space, the hotel creates exquisite places with artistic atmosphere.
