

NIRVANA Rock Cafe

As the name suggests, Nirvana Rock Cafe Project is a coffee shop focusing on rock music.

In addition to the warm and calm atmosphere of a café, the goals of this project are to consider things such as the privacy of the interior space, to pay special attention to conveying the feeling of rock music, and also to provide a space for the performance of music groups with different styles.

In the facade part of the project, an attempt was made to preserve the privacy of the interior space and also create a corridor for the entrance by creating a non-opening screen for the upper part of the façade, which creates an inviting feeling for the entrance part.
