Urban Elevator for Transporting
Pedestrians, Disabled Individuals,
and Bicycles
Group Services

Masterplan | Timeline | 2023 - 2070

Common Garden pathway | Valiasr to AbbasAbad

Current situation | Modification Process

Removal of existing stairs and protrusions at Shafagh dead-end.

Elimination of protrusions at 6th dead-end and the process of slope modification, along with the replacement of stairs with ramps, to make Gandhi Street more accessible for people with disabilities.

The process of slope modification and replacement of stairs with ramps to make Gandhi Street more accessible for people with disabilities.

Eliminating automobile dominance on Palizvani Street by offering an alternative to the traditional pedestrian pattern on both sides and providing a space for car passage in between.

Removal of the existing ramp-stairs on the western edge of the lands to replace them with the entrance to Palizvani Bridge Garden.
